Systems & Control Letters 23 (1994) 473–474
North-Holland

Author Index Volume 23 (1994)

(The issue number is given in front of page numbers)

Abedor, J., K. Nagpal and **K. Poolla,** Robust regulation with $\mathcal{H}_2$ performance (6) 431–443
Akçay, H. and **H. Hjalmarson,** The least-squares identification of FIR systems subject to worst-case noise (5) 329–338
Alamir, M. and **G. Bornard,** On the stability of receding horizon control of nonlinear discrete-time systems (4) 291–296
Alvarez-Ramírez, J., R. Suárez and **J. Alvarez,** Semiglobal stabilization of multi-input linear systems with saturated linear state feedback (4) 247–254
Alvarez, J., see J. Alvarez-Ramírez (4) 247–254
Álvarez, J., see R. Suárez (6) 403–410

Bagchi, A. and **R. Karandikar,** White noise theory of robust nonlinear filtering with correlated state and observation noises (2) 137–148
Ball, J.A. and **M. Verma,** Factorization and feedback stabilization for nonlinear systems (3) 187–196
Bambos, N. and **B. Prabhakar,** On infinite queueing tandems (4) 305–314
Battilotti, S., Stabilization via dynamic output feedback for systems with output nonlinearities (6) 411–419
Becker, G. and **A. Packard,** Robust performance of linear parametrically varying systems using parametrically-dependent linear feedback (3) 205–216
Berg, J. and **H.G. Kwatny,** An upper bound on structurally stable linear regulation of a parameter-dependent family of control systems (2) 85– 95
Bertrand, P., see F. Dufour (6) 453–461
Bornard, G., see M. Alamir (4) 291–296
Byrnes, C.I., see W. Lin (2) 127–136

Chan, C.Y., Robust discrete-time sliding mode controller (5) 371–374
Chen, B.-S. and **S. Tenqchen,** H_∞ control design in bilinear systems: a tensor formal series approach (1) 15– 26
Chen, J., M.K.H. Fan and **C.N. Nett,** Structured singular values and stability analysis of uncertain polynomials, Part 1: the generalized μ (1) 53– 65
Chen, J., M.K.H. Fan and **C.N. Nett,** Structured singular values and stability analysis of uncertain polynomials, Part 2: a missing link (2) 97–109
Chisci, L., A. Garulli and **G. Zappa,** Fast algorithms for generalized predictive control (5) 339–348
Chung. C.C., see J. Hauser (1) 27– 34
Clements, D.J., see Y.A. Jiang (5) 389–394

Dahleh, M.A., see S.R. Venkatesh (3) 229–236
Dayawansa, W.P., see F. Mazenc (2) 119–125

Elsevier Science B.V.

Dufour, F. and **P. Bertrand,** The filtering problem for continuous-time linear systems with Markovian switching coefficients (6) 453–461

Elliott, R.J., Measure change estimates for hidden Markov models (2) 149–157
Espinosa, G. and **R. Ortega,** State observers are unnecessary for induction motor control (5) 315–323

Fan, M.K.H., see J. Chen (1) 53– 65
Fan, M.K.H., see J. Chen (2) 97–109
Fang, Y., K.A. Loparo and **X. Feng,** A sufficient condition for stability of a polytope of matrices (4) 237–245
Feng, X., see Y. Fang (4) 237–245
Fong, I-K., see C.-L. Tseng (4) 271–278
